

International freight under unified control

SWIFTTRANS LLP is an international logistics company from Kazakhstan serving corporate clients. We coordinate multimodal shipments between Europe, China, and Central Asia — combining road, rail, sea, and air legs into a single chain, with full control over timing, documentation, and transit stages.

We match the transport format to the route, cargo, and budget, and support every shipment from rate calculation through to delivery. Operational support for active shipments is available 24/7.

Types of transport

Road FTL / PTL

Curtain-sided, refrigerated, and mega trailers

Rail & Container

Import, export, and transit shipments

Sea Freight FCL / LCL

Port handling and connecting legs

Air Freight

Urgent international dispatches

Multimodal Schemes

Connecting legs to fit route and timing

Last Mile

Container carrier, low-loader, flatbed

PARTNERS

Trusted operators for global shipments
